

KUNDAN KUMAR A

Software Developer | Full-Stack (MERN) & AI/LLM Enthusiast | Java & Python Developer

Hosur, Krishnagiri, Tamil Nadu - 635126 • 9952429138 • kundan25052003@gmail.com • linkedin.com/in/kundankumar-a-81125a2a4

SUMMARY

Final-year B.Tech Computer Science student at IPS Academy, Indore (CGPA 9.04/10) with hands-on experience building **full-stack web applications** and **AI/LLM-powered tools**. Skilled in **Java, Python, and the MERN stack**, with a growing focus on **Machine Learning and Large Language Model applications**. Built and shipped **EduSure**, a live college collaboration platform with 100+ active users, and an **AI-powered resume parsing and candidate matching system** using LLMs. Winner of Udaan'26 Phase I minor project competition. Seeking opportunities to apply strong problem-solving and software engineering fundamentals to real-world engineering challenges.

EDUCATION

IPS Academy, Indore

Bachelor of Technology, Computer Science Engineering | CGPA: 9.04 / 10

Indore, India

2023 - 2027 (7th Semester)

Class XII (Tamil Nadu State Board): 76% — 2022 Class X (Tamil Nadu State Board): 97% — 2020

SKILLS

Languages: Java, Python

Web Development: MERN Stack (MongoDB, Express.js, React, Node.js)

AI / Machine Learning: Machine Learning fundamentals, Large Language Models (LLMs), Groq API (Llama 3.3 70B), Prompt Engineering

Concepts: Data Structures & Algorithms, Git, Software Development Lifecycle

PROJECTS

EduSure — Full-Stack Campus Collaboration Platform (MERN)

edusure-five.vercel.app • 100+ live active users

- Built a decentralized, admin-verified platform for students to upload, discover, and download notes and Previous Year Questions (PYQs), replacing scattered WhatsApp-group sharing
- Designed the **Edu-Coin economy**, a gamified reward system where users earn coins for sharing quality resources and spend them to access others, driving organic content contribution
- Implemented a Community Hub for peer academic discussion and an integrated Academic Calendar for deadline and event tracking

AI Resume Parser & Candidate Matching System

Python, Groq API (Llama 3.3 70B), Pydantic, PyPDF, python-docx

- Built an AI-powered pipeline that extracts structured candidate data (skills, education, experience, projects, certifications) from PDF and DOCX resumes
- Used an LLM to compare parsed resumes against a job description and generate an AI-based candidate match score for ranking applicants
- Applied prompt engineering and structured output parsing (Pydantic) to reliably convert unstructured resume text into usable HR data, exploring real-world automation with LLMs

CERTIFICATIONS

- Java Training — Spoken Tutorial Project, IIT Bombay (Score: 72.50%, Credits: 4) — December 2024
- Python for Beginners — Simplilearn SkillUp — May 2026
- Machine Learning — IBM SkillsBuild — August 2026
- Artificial Intelligence Professional Certificate — Unified Mentor — August 2026

KEY ACHIEVEMENTS

1st Position — Udaan'26 Phase I

Minor Project competition & exhibition, IPS Academy CSI (April 2026)

100+ Live Users

Built and shipped EduSure, a full-stack MERN platform actively used by the college community

Multi-Domain Certifications

Completed certifications spanning Java, Python, and Machine Learning from IIT Bombay, Simplilearn, and IBM
